Intelligent Your Life
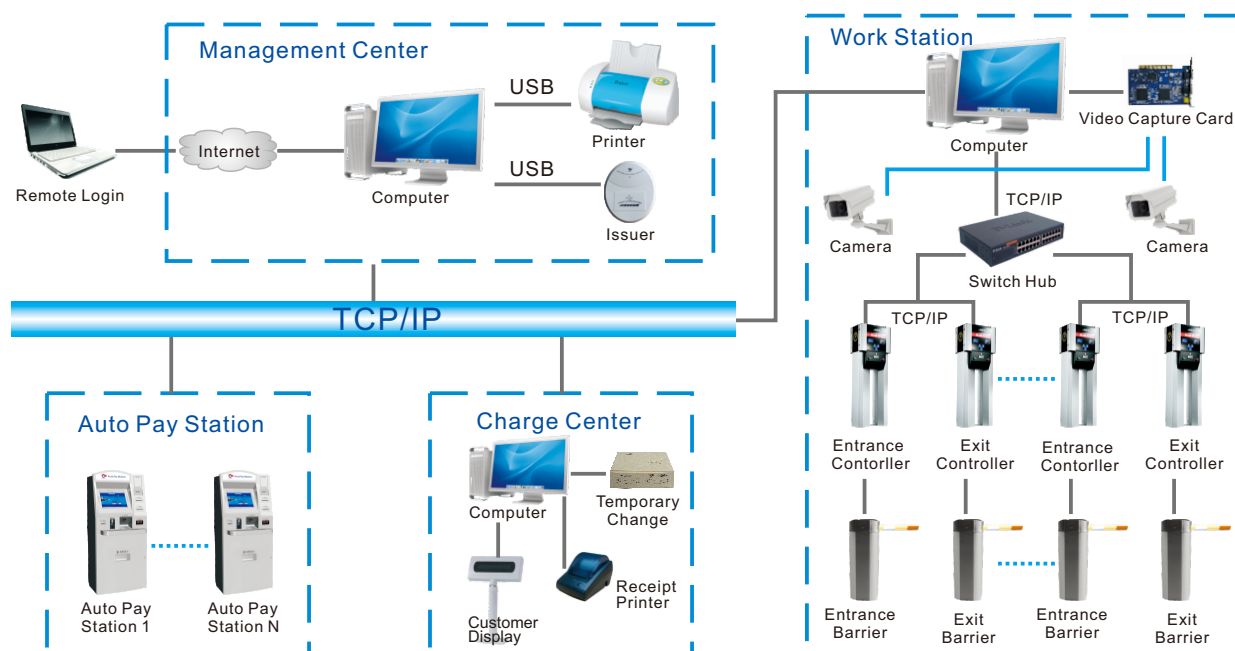

IC+IC ticket controller

Specifications

Item code: JSKT6017/5017
Operating voltage: AC 220/110V±10%, 50Hz~60Hz
Operating temperature: -25℃ +65℃
Relative humidity: ≤95% no condensation
Communication interface: TCP/IP
Black list: 100,000
User database: 200,000
Record: 200,000
IC card distance: 3~5cm
EM card distance: 5~8cm
Accuracy of meter: ≤1 second
Operating system: Windows XP / Windows 2003,
                   Windows 7(32 digitals)

Features

> ARM9 processor, high speed with low power consumption.
> TCP/IP communication, self-adopt 10M/100Mbps net speed
> High precise RTC, daily tolerance less than 3seconds
> LED Display, maximum 40 characters display, customer can
  set up display information on software.
> Voice prompt
> IC Card, EM card to customer options
> Integrated middle/Long range reader WG interface
> PSAM card encryption authorization
> Adopt to pinhole camera for image capture.
> Support discount function
> Temperature controller is option
> Support intercom.
